

**The main production  
of EXIMET TRAF0, spol. s r. o.  
can be divided into the following groups:**

**1) Productions up to 1kV**

- Single-phase Transformer 7 ÷ 5300 VA
- Single-phase Output Transformers J 56, J64 3,7 ÷ 13,3 kVA
- Single-phase Output Transformers 10,5 ÷ 300 kVA
- Three-phase Transformers 250 ÷ 5000 VA
- Three-phase Output Transformers F56, F64 5,6 ÷ 450 kVA
- Three-phase Output Transformers 5,6 ÷ 450 kVA
- Single-phase Separating Protective Transformers, unresistant to a short circuit, for powering in rooms for medical purposes 0,5 – 20 kVA
- Three-phase Separating Protective Transformers , unresistant to a short circuit, for powering in rooms for medical purposes 3,15 – 31,5 kVA
- Three-phase Compensating Chokes
- Three-phase Commutating Chokes
- Three-phase Decompensating Chokes

**2) Productions up to 35 kV**

- Oil Power Transformers
- Dry Power Transformers
- Dry Reactors and Chokes

**3) Special products**

- Transformers - rectifiers, furnace, laboratory, for ground protection, and others
- Reactors - filtering, starting, compensating, smoothing, limiting, and others
- Single-Phase Dry Filter Reactors for Outdoor Installation
- 3-Phases Dry Reactors
- Single-Phase Oil Transformers Hermetically Sealed
- Manufacturing of replacement coiling - according to the model or supplied documentation

**4) Repairs**

- Dry Transformers and Reactors with impregnated winding
- Oil Transformers

**EXIMET TRAF0, spol. s r. o.** has a quality system certified according to the standard ČSN EN ISO 9001:2009, of BVQI company by which it guarantees the highest production quality. The firm was awarded certificates by world-wide companies.

The main effort of EXIMET TRAF0, spol. s r. o. is focused on satisfying customer requirements, especially concerning production quality and deadlines.

Our permanent customers are large domestic and foreign companies from Denmark, France, Holland, Italy, Japan, Germany, Nigeria, Norway, Poland, Russia, Slovakia, Switzerland, the USA, and Great Britain.
